

# Quantum View 10.1 Volume buttons Replacement

How to replace the volume buttons.

Written By: stephen Munchinsky

## Step 1 — Open Quantum View case

- Start by turning the tablet over with the screen down. The carefully use a plastic opening tool to pry the cover off. Start from the corner opposite the hibernate button.

## Step 2 — Removing the electrical tape and magnets.

- Pick up the magnets from the bottom edge of the tablet next to the keyboard connection and put them in a place that they will not get lost. Then carefully remove all 4 strips of electrical tape.

### Step 3 — Unhooking the battery

- Using a small plastic opening tool; gently pull the connection off of the motherboard.

### Step 4 — Disconnecting the buttons

- Peel back the yellow clear tape. Followed by the use of a plastic opening tool to release the ribbon connection.

## Step 5 — Removing the volume buttons

- Using tweezers gently pull up on the volume button board to remove.

To reassemble your device, follow these instructions in reverse order.
